Applicant's amendment dated February 19, 2003, has been fully considered.

Applicant has argued that Zimron et al does not disclose the condensation of the hot pressurized vapor in the chamber. The Examiner disagrees. Please refer to figure 3 of Zimron, the sump 32' has liquid at the bottom. In column 4, lines 21-42, Zimron discloses that it's well known that the hot vapor is in direct contact with the liquid to cool the hot vapor. Therefore, the condensation of hot vapor must be inherently formed due to the direct heat transfer. Also, please note the structures of figure 3 in Zimron is identical to the structure of figure 3 in this application, and both applications are from the same inventor. If the structure in this application produces condensation in chamber 32, then there is no reason for the chamber 32 in Zimron not doing the same thing. For apparatus claim, if all structures in the claims are met in a reference, then said reference can be used to reject the claims under 35 U.S.C. 102.

Applicant's arguments regarding the 103 rejection have been found persuasive, and the rejection has been withdrawn by the Examiner.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3748

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being fully anticipated by U.S. 5743094 (Zimron et al).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
